Level of practice of sport or physical activity

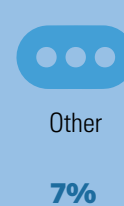

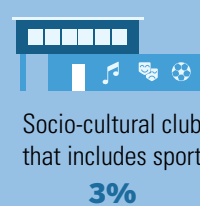

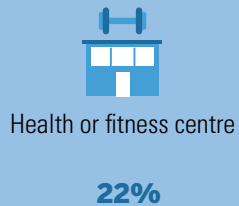

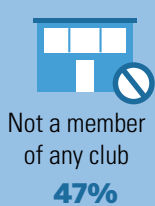

Place of practice of those engaged in sport and physical activity

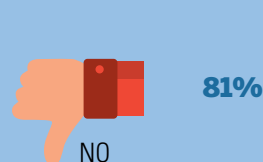

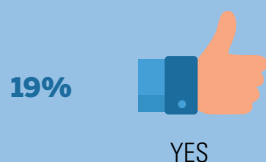

Reasons for engaging in sport or physical activity

Membership of clubs where people participate in sport or recreational physical activity

Level of engagement in voluntary work that supports sport and physical activity

This section presents analysis from the official statistics collated at both national and European level through National Statistics Offices (NSO) and Eurostat. For the purpose of the fact sheet, data are provided for two different years to underline tendencies. These years can be different depending on the topic as we have not always been able to collate the same level of information/statistics for each year.

The collection of data has been a challenge and this analysis presents the best information available about the national sport labour market from the official statistics but is not necessarily the exact reality. Further discussion on the statistics can be found in the European report of the project.

Scope: the widest sport and physical activity sector defined by the Council of Europe (2001) as “all forms of physical activity which, through casual or organised participation, aim at expressing or improving physical fitness and mental well-being, forming social relationships or obtaining results in competition at all levels”. In this fact sheet we are using the term “sport sector” having the meaning of the broad sector of “sport and physical activity”.

3.1 SIZE AND CHARACTERISTICS OF THE NATIONAL SPORT LABOUR MARKET

Sources: Eurostat and National Statistics Offices

To summarise our statistical definition for the sport labour market, the work carried out in collaboration with National Statistics Offices (NSO) and Eurostat was to collate available statistics on the number of:

- Persons having a sport-specific occupation (ISCO 342*) in an organisation whose main business is the provision of sport (NACE 93.1**), e.g. professional athletes, coaches, instructors in a sport club
- Persons having a non-sport specific occupation (Other ISCO codes) in an organisation whose main business is the provision of sport (NACE 93.1), e.g. managers, receptionists in a sport federation
- Persons having a sport-specific occupation (ISCO 342) in an organisation whose main business is not the provision of sport (Other NACE codes), e.g. a fitness instructor working in a hotel

* ISCO - “The international standard classification of occupations”. ISCO divides jobs into 10 major groups of occupations and sport specific occupations are listed under ISCO3 Technicians and associate professionals and more precisely under the sub-group ISCO 342 Sport and Fitness Workers (3421 - Athletes and Sports Players; 3422 - Sports Coaches, Instructors and Officials; 3423 - Fitness and Recreation Instructors and Programme Leaders).

** NACE - “Statistical classification of economic activities in the European Community”. NACE is basically a four-digit classification providing the framework for collecting and presenting a large range of reliable and comparable statistical data according to economic activity. The codes under NACE 93.1 (Sport activities) define the organisations whose main business is the provision of sport (93.11 Operation of sports facilities; 93.12 Activities of sport clubs; 93.13 Fitness facilities; 93.19 Other sports activities).

Variance from 2014 to 2018

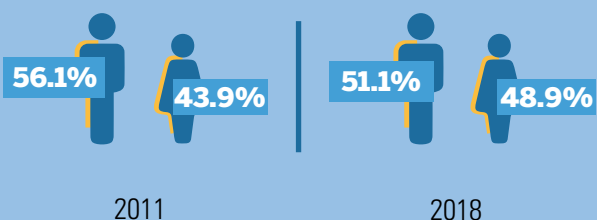

Proportion of sport occupation in 2018

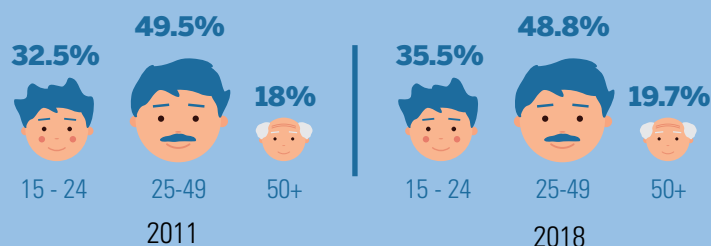

CHARACTERISTICS OF PEOPLE HAVING A SPORT SPECIFIC OCCUPATION - ISCO 342

(ISCO 3421 - Athletes and Sports Players; ISCO 3422 - Sports Coaches, Instructors and Officials; ISCO 3423 - Fitness and Recreation Instructors and Programme Leaders)

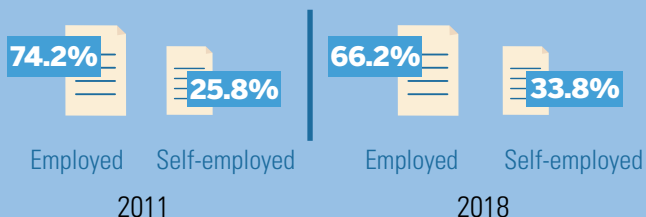

Total sport specific occupation - Gender

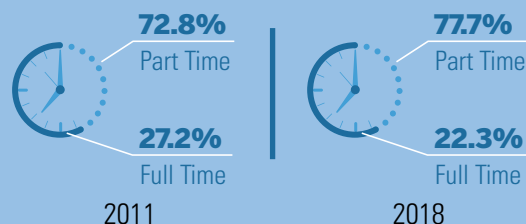

Total sport specific occupation - Age

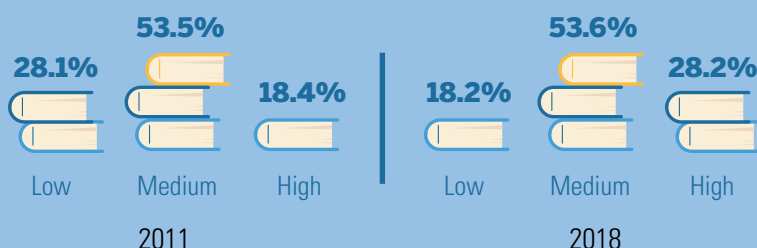

Total sport specific occupation - Type of employment

Total sport specific occupation - Type of contract

Total sport specific occupation - Level of Education*

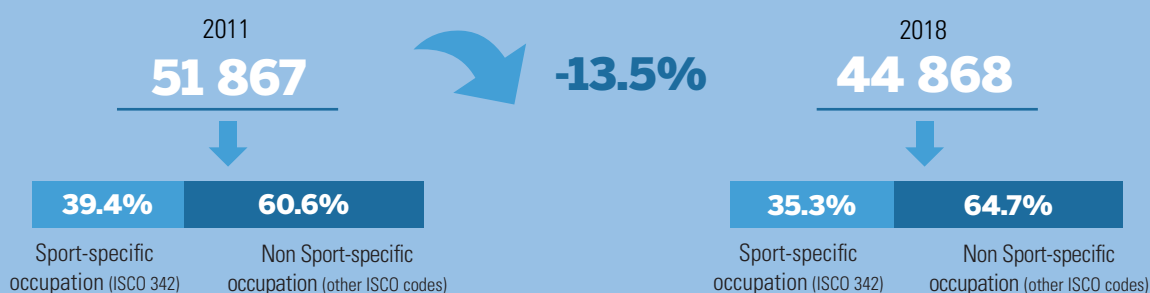

* The statistics on level of education collated from Eurostat refer to ISCED level:

	ISCED 2011 (data from 2014 onwards)	ISCED 1997 (data up to 2013)
Low education	Levels 0-2	Levels 0-2
Medium education	Levels 3-4	Levels 3-4
High education	Levels 5-8	Levels 5-6

3.3 FOCUS ON SPORT ORGANISATIONS (NACE 93.1)

NACE 93.1 (Sport activities) includes all organisations whose main business is the provision of sport (93.11 Operation of sports facilities; 93.12 Activities of sport clubs; 93.13 Fitness facilities; 93.19 Other sports activities)

Total number of people working in a sport organisation (NACE 93.1)

Occupations engaged within sport organisations (NACE 93.1) - 2016

	ISCO 1 – Managers (e.g. directors, CEO)	6.3%
	ISCO 2 – Professionals (Health professionals, communication professionals, journalists, lawyers)	9.6%
	ISCO 3 - Technicians and associate professionals (incl. sport and fitness workers)	46.1%
	ISCO 4 - Clerical Support Workers (e.g. secretaries, receptions, bookkeepers)	6.3%
	ISCO 5 - Service and sales workers (e.g. conductors, cooks, waiters, lifeguards, sales workers)	23.8%
	ISCO 6 - Skilled agricultural and fishery workers (e.g. animal producers, market gardeners)	1.3%
	ISCO 7 - Craft and related trades workers (e.g. building workers, painters, cleaners, bicycle repairers)	1.2%
	ISCO 8 - Plant and machine operators and assemblers (e.g. car, van, bus drivers, machine operators)	0.4%
	ISCO 9 - Elementary occupations (e.g. office cleaners, labourers, deliverers)	5%

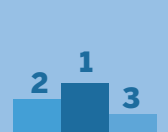

This section presents the main national results and key information from the first ever European Employer Skills Survey for the sport and physical activity sector. The goal was to consult the widest variety of employers to collate data on realities and difficulties to recruit and retain staff and volunteers and to identify the skill needs and future priorities for the sector.

The online survey was a great success with a total of **3,812 valid responses** collated from sport employers across the whole European Union and **59 responses** from your country.

Important: the analysis provides an elaboration of all responses collated through the survey and so should be taken into consideration carefully as it is not necessary the exact reality and the exact picture of the whole sector.

The missing percentages stand for the answer "I do not know" present in the initial survey.
Respondents indicate their agreement/disagreement with the above statements.

THE PROJECT

The aim of the ESSA-Sport project, funded by the European Commission under the Erasmus+ programme, was to establish a European Sector Skills Alliance covering the full breadth of the sport and physical activity sector across the EU.

The 3-year project, which concluded in October 2019, aimed to create a debate within the sector on the key issues of skills and workforce development which are central to helping the sector grow, to equip those working or volunteering with the right skills and to enable the sector to fulfil its potential as a social, health and economic driver.

The overall ambition was to create an evidential basis for change and improvement, to create a major consultation on skills and to build a lasting consultation network at national and EU level to take forward the conclusions and recommendations made in national and EU Reports.

The consortium, composed of 20 national coordinators and 5 European networks, is proud to have generated new knowledge and statistics included within this National Fact Sheet.

Further information on the identified skill needs and future priorities for the sector can be found in the detailed European Report as well as National Reports.
